- Click 'Install Now'
- Activate the plugin in the Plugins dashboard

Uploading via FTP

- Download 'weblator-polling.zip'
- Extract the 'weblator-polling' directory to your computer
- Upload the 'weblator-polling' directory to the '/wp-content/plugins/' directory
- Activate the plugin in the Plugins dashboard

Creating a Poll

- Click on the new 'Polls' link in the sidebar from your WordPress admin area
- Click on the 'Add New' link at the top of the page
- Complete the 'Chart settings' inputs
- If you chose to show the results you will be able to input 'Style Settings'
- You can add choices to you poll by clicking the 'Add Option' button in the 'Response Options' area
- Depending on the type of chart you have chosen you may be able to add some style settings here as well
- Once complete click the 'Update' button on the right
- A shortcode will be generated for you to use in a page, post or template file. The shortcode to use will be show at the top of the relevant poll edit screen. It will also be possible to display a random poll and a shortcode is available for this too
